

COVID-19

## PROTECTING WHAT MATTERS MOST

Your Trusted Partner in Securing Your Whole Identity

Visit our  
**Coronavirus Scam Alert**  
page for real-time  
updates.

With the rise of COVID-19  
scams and compromises to  
cell phones, Mobile Attack  
Control alerts IdentityForce  
members to a wide  
array of mobile threats to  
protect against mobile hacks  
and threats.

Identity thieves are preying on the fears of individuals around the world as coverage regarding the coronavirus outbreak, or COVID-19, increases. Fraudsters are exploiting the opportunity to steal the **Personally Identifiable Information (PII)**, financial information, and even medical information, of those looking for knowledge, protection, and treatment for the viral infection.

With the exponential increase of scams, you can feel confident that you've made the right choice with IdentityForce's **top-rated** identity theft and mobile threat protection.

After more than 40 years in business, we're proud of the legacy we continue to build by providing our members with world-class technology combined with 5-star personalized support. It's why we have a 95% customer satisfaction rating, 98% member retention, and 100% restoration success.

Original review: May 19, 2020

*"When I have a transaction on my accounts, you notify me immediately, can't ask for anything better. IdentityForce makes me feel safe and protected. Thanks. Keep up the good work, it is nice to know you are watching out for me."*

### 8 MUST-HAVE CAPABILITIES

IdentityForce has you covered. Here are some of the key capabilities built to keep your whole identity safe:

- 1 Mobile Device Security** | Includes **Mobile Attack Control™**, which monitors and alerts IdentityForce mobile app users to a wide array of threats including **rogue apps, spyware, unsecured Wi-Fi connections, and even recognizes fake or "spoof" networks.**
- 2 Advanced Fraud Monitoring** | With Advanced Fraud Monitoring, you will receive virtually real-time alerts when lenders, such as banks, auto dealers, mortgage companies, and government agencies, request a copy of your credit report. **Early notification helps you stop fraudulent attempts to open a new account or increase a line of credit.** Any credit activity can hurt your credit score.

## WE TAKE IDENTITY PROTECTION SERIOUSLY

- 3 **Dark Web Monitoring** | With an increase in activity around our online lifestyles, COVID-19 scammers are working hard to steal your identity. IdentityForce is working even harder by scouring thousands of websites, including those on the **Dark Web**, black market chat rooms, blogs, and other data sources to **detect the illegal trading and selling of your personal information**.
- 4 **Bank, Credit Card, and Investment Account Activity Alerts** | Stay informed and in control as you receive smart notifications when a charge, withdrawal, or balance transfer exceeds a dollar amount determined by you. **Help quickly spot credit card fraud, bank account fraud, and investment account fraud in one centralized place.**
- 5 **Credit Reports and Scores** | IdentityForce offers total control through instant online access to your credit reports and scores from Equifax, Experian, and TransUnion (single-bureau or 3-bureau available). **It's critical that you regularly check your credit reports to look for mistakes and fraudulent activity — with early detection, you can minimize any damage to your credit.**
- 6 **Online PC Protection Tools** | With work-from-home environments on the rise, IdentityForce includes anti-phishing and anti-keylogging software to protect your PC while you're shopping, banking, and sharing information online. **Proactively protects against malware stealing your sensitive data, such as username, password, credit card number, bank account details, and other personal information** you may type on your PC keyboard. **IdentityForce protects every keystroke and detects dangerous fake sites to prevent phishing attacks.**
- 7 **Social Media Identity Monitoring** | We're all engaging online even more than ever and relying on these social networks to remain close with friends and family. **IdentityForce monitors** your Facebook, Twitter, YouTube, and Instagram accounts for inappropriate activity and posts that could be perceived as violent, are using profanity, or could be categorized as cyberbullying or discriminatory — **especially important to ensure children in your household are protected.**
- 8 **Smart SSN Tracker** | Coronavirus stimulus payments will trigger additional scam opportunities, as will the extended U.S. federal tax season. Smart Social Security Number (SSN) tracking intelligently alerts you if there's an unfamiliar name, alias, or address associated with your SSN, which could be an indication of fraud. **As a result, it greatly reduces the time, money, and emotional stress associated with a stolen SSN.**

## WE'RE YOUR IDENTITY PROTECTION TEAM

IdentityForce's products also include **EZShield Restoration Services**, where you'll gain access to Certified Protection Experts who offer comprehensive, 24/7 recovery services. We'll complete paperwork, make calls, and handle every detail to restore your identity. And, you're covered by our nationwide \$1 million identity theft insurance policy\*.

\* Depending on your specific IdentityForce membership plan, the amount of your insurance coverage may vary.
